PCB tags are tailored as UHF Gen2 long range passive tags peculiarly intended to function when affixed to metal objects. They are lucid to implement on any sort of metal surface as they can be tacked through rivets, adhesives and magnets. They are ideal for assets that are subject to severe conditions such as vibration, shock, chemical exposure and fluctuating temperatures. They are extensively deployed in factories, warehouses and automotive to accomplish their requirements of managing inventory. They offer prolonged reading range which makes them competent for disparate application areas.
