

IDT RETAIL TAG

RFID+EAS Anti-theft Tags

IDT Retail tag is a dual-frequency smart tag that combines EAS (Anti-theft) technology and RFID technology. These EAS + RFID Tags are specially designed for the Retail Industry to prevent theft, enhance the visibility of goods, and provide customers with intelligent services. These tags are fully compatible with the global EAS system and are fully consistent with international standards; the tags can be reused, which can save a lot of use costs. These tags have large-capacity memory to fully meet your information storage needs, generally used for shelf management, inventory management, and fast cash register, so that users can quickly obtain product information.
